## Trifoglio Entrance

**People:** unsafe for pedestrians, designed for cars.

**Environment:** no spaces for resting, eating, relaxing.

**Energy:** asphalt or concrete pavement, not permeable.

**Accessibility:** no link to the buildings, poor access to facilities.

**URBAN ORCHARD/ London UK**

**PAVEMENT TO PARKS / San Francisco**

**ROAMING FOREST / Bat Yam**

The vision is to create a defined PUBLIC SPACE for students' activity, separated from cars in favor of bicycle parking, green areas, street furniture AND outdoor activities.

The parking stall before...

The structure is made of used vegetable crate boxes taken from the street markets

The seeds were planted in advance in a geotextile fabric to create temporary flowerpots

An old rug was put on the asphalt to create a comfortable place to sit.

The soil was mixed with two types of composts given for free in organic farms.

The Poligarden was constructed as a **low cost** installation, using local and recycled materials.

Temporary Installation in Polimi

Created on 11/09/2013 by tal.ashkenazi@mail.polimi.it

The Poligarden is a temporary urban garden constructed to replace one parking spot inside Politecnico's parking lot. The goal is to give a new meaning to an urban space. Can a parking lot become a...
