

### CALL FOR STUDENTS -THESIS PROPOSALS

**Opportunities exist for 4 theses aimed at probing the extent of possible reductions of CO<sub>2</sub> emissions by Politecnico di Milano within specific activity sectors.**

Here is the list of theses, grouped by subject (titles are provisional):

#### **Energy saving**

1. Reduction of Politecnico di Milano's CO<sub>2</sub> emissions through improved interventions for managing and regulating air conditioning systems (supervisor: Prof. Mario Motta)

#### **Transports**

2. Reduction of CO<sub>2</sub> emissions arising from Politecnico di Milano staff mission movements (supervisor: Prof. Giovanna Marchionni; Prof. Luca Studer)
3. Reduction of CO<sub>2</sub> emissions by Politecnico di Milano students through the use of "mobility credits" (supervisor: Prof. Luca Studer)
4. Data analysis of movements by Politecnico di Milano students and staff for the definition of new sustainable mobility policies (supervisor: Prof. Simone Vantini)

For your applications, write to the reference Professor, indicating your skills on the subject (e.g. attendance of the professor's course or a course run by another professor on the same subject), and c-c the Servizio Sostenibilità di Ateneo – Direzione Generale at [serviziosostenibilita@polimi.it](mailto:serviziosostenibilita@polimi.it)

For more information, you may approach the Servizio Sostenibilità di Ateneo - Direzione Generale: [serviziosostenibilita@polimi.it](mailto:serviziosostenibilita@polimi.it)
