social innovation teams

# Social Innovation Teams (SIT)

a community of  
social innovators and social entrepreneurs

March 2017

# SIT

social innovation teams

**SIT is a growing community of social innovators and social entrepreneurs**

We involve and support innovators and entrepreneurs, including students, researchers, professionals and organisations

**We promote and support three typologies of**

## **Social innovation projects:**

1. Entrepreneurial projects

→ new organizations that deliver more just or sustainable products or that solve social problems

2. Research and innovation projects

→ studies and products/services for existing organizations

3. Advocacy projects

→ campaigns, events and media to promote social change

We believe that new solutions can be developed against growing inequalities, discriminations, exclusions, injustices, diseases, pollution, and climate change

We believe that Social Innovations can be among the best answers to these problems

We believe in new *solutions that benefit society as a whole more than the individuals or organizations that developed them*

The screenshot shows the eppela crowdfunding interface. At the top, the eppela logo is on the left, and navigation links for DISCOVER, CREATE, Support, Profile, and IT are on the right. The main content area features a video player with a red and white bicycle ambulance and a yellow play button. Below the video, the title 'FLAMINGO BIKE-AMBULANCE' is displayed in large white letters. A subtitle reads: 'Flamingo: a bike-ambulance for poor Countries, where bike is the easiest way to get around'. At the bottom, a summary bar shows the goal (€6,000), collected amount (€6,075), and expiration date (20 Feb 2016). A green 'SUCCESSFUL' button is on the right.
